

Modular Log Homes

Floor Plans | Pricing | Options

Hill View Mini Barns, LLC is an authorized dealer of Cozy Cabins LLC, where one of the primary goals is building homes with top quality workmanship. These homes come to life in a Lancaster County, Pennsylvania facility, where strong work ethics and good craftsmanship are still handed down from one generation to another.

Our team is committed to building your home your way. The style, size, and features are for you to choose; but if you prefer it quick and easy, just choose one of our well-designed floor plans that best fits your lifestyle. If you want to put your own personal touch into your layout, you have the freedom to customize one of our floor plans, or even design your own from scratch! Just show us what you want and our design team will create accurate scale drawings from your ideas.

And to top it off: All our homes are modular construction, meaning they are pre-built and delivered to your job site in sections, already 75%–90% complete, allowing you to move in much more quickly and with fewer headaches. Another benefit is the fact that your home is constructed under a roof in a controlled environment so no rain or snow can cause mold issues later. It's efficient too, with less wasted building materials than traditional construction. Your 21st century modular log home is something for you and the next generations to be proud of. Let's do this together!

Construction schedule for 2022 is currently full;
New orders being scheduled for 2023.***

Package Explanations

Main Shell

- o Floor constructed of 2x10 joists spaced at 16" o/c with 3/4" OSB tongue & groove sub-floor
- o Walls constructed of 2x6 studs spaced at 16" o/c with 7/16" OSB wall sheathing and Tyvek® house wrap
- o Roof constructed of engineered trusses spaced at 24" o/c
- o Roof decked with 5/8" OSB sheathing
- o GAF® lifetime architectural shingles over synthetic roof underlayment w/ ice & water shield at eaves (opt. metal roof)
- o Porch floor consists of 1" composite decking
- o Exterior log siding is 2x8 tongue and groove white pine, with 5-year stain applied
- o Provia® insulated vinyl windows – double-hung/tilt with max efficiency Low-E/Argon/HC glass
- o Provia® insulated fiberglass entry doors with 9-lite glass and Schlage® lever locksets w/ deadbolt

Insulation

- o Walls: R-21 fiberglass insulation
- o Ceiling: R-38 cellulose (closed cell spray foam + fiberglass for Mtnr. Deluxe & Chalet vaulted areas – R-49)
- o Foundation: R-14 closed cell spray foam (2" thick, on interior)

Interior

- o Commercial grade vinyl plank floors (vinyl tile at bathrooms, mud rooms)
- o Walls & ceilings finished in 3/4" tongue & groove knotty-pine boards with 2-coat clear finish
- o Knotty-pine solid wood interior doors (v-groove flat panel) with Schlage® lever latches
- o Wood closet shelving - adjustable height

Kitchen

- o Solid pine cabinetry with full-extension, soft-close doors & drawers (lazy susan in all angled corner cabinets)
- o Wilsonart® laminate counter tops with decorative edge profiles (color & profile of your choice)
- o Under-mount, double-bowl stainless sink and Moen® faucet with pull-down sprayer (spot-resistant stainless)
- o Over-range microwave with thru-wall exhaust (black, white or stainless, w/ optional deduct to range hood)
- o Counter receptacles [GFCI protected]
- o Range electrical consists of (1) 240v & (1) 120v receptacle – to power an elect. range or controls on a gas model

Bathrooms

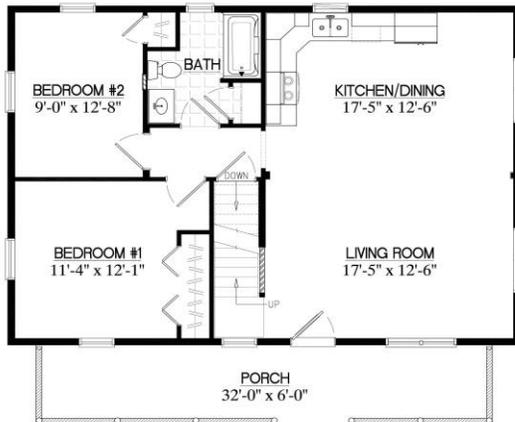

- o All plumbing fixtures (Moen® brand) are installed as dictated by floor plan, including faucets & shower heads
- o Tubs and showers are 1-piece fiberglass units – Biscuit color
- o Solid pine vanity cabinetry with cultured marble 1-piece top/sink – Biscuit color, swirled design
- o Rheem® water heater installed where shown on floor plan (all std. layouts without interior basement access)
- o Exhaust fan/light combination in ceiling, light over sink, and 20 amp GFCI receptacle at sink
- o Medicine cabinet at sink, plus amenities such as: toilet paper holder, hand towel ring, towel bar and robe hook

Electrical

- o 200 amp panel box with breakers installed (2 conduits through floor)
- o Ceiling fans with lights in living room and bedrooms (includes fan speed control)
- o Outside light on porch and at each additional exterior door
- o Exterior receptacle on front and back of home, and at each side door
- o Tamper-resistant receptacles spaced around rooms (less than 12' apart)
- o Smoke/CO alarm in hallway & loft areas and a smoke alarm in each bedroom – all hard-wired together
- o LED lighting indoor and outdoor **exception: bath fans may be factory-equipped with energy-efficient CFL bulbs*

Electric baseboard heat - Mountaineer Deluxe & Chalet	\$	2.50	p/sq.ft.
Chase opening in floor & ceiling (for future HVAC system)	\$	205	

Customer Responsibilities for Homes

“What is included in your packages?” This question is one of the most popular ones we get during daily interaction with our customers. We offer a very complete package right from the start, so the answer to that question gets quite lengthy. This includes things like: complete exterior with log siding (protected with exterior sealer), double-pane insulated vinyl windows with shutters, insulated walls and ceilings, knotty pine interior with polyurethane finish, engineered yellow pine floors, full electrical system including panel box, breakers, lights & ceiling fans, bathroom fixtures (even toilet paper & towel holders), solid pine kitchen cabinetry with dovetailed soft-close drawers, etc., etc. Even the shipping costs (within Maine), crane rental, setup costs, and taxes are *all included!* When a package is this inclusive it is sometimes easier to describe what we are *not* including.

So, what is not included? Even though we try to make a package as complete as we can, there are still a number of things you will be responsible for completing. Some of our customers choose to hire a local dependable general contractor to pull all these details together, while more adventurous folks choose to do the work themselves. See the list of your responsibilities below:

- **Permits**

While our residential structures already include a full set of drawings that has been reviewed to ensure code compliance, the actual acquisition of a building permit and other local building requirements are your responsibility. But since the plans have already had a code review and our portion of the project will be factory-inspected, this process is typically much easier than it is for a site-built structure.

- **Excavation/Driveway**

You will need a local excavator to level the site and dig the hole for the foundation. This same contractor typically installs a driveway & removes trees as well if needed.

- **Foundation**

Our homes require either a crawl space foundation or full basement. Your final plans will include a foundation design with every dimension your contractor needs for construction. It can be constructed of your choice of: cinder blocks, poured concrete, precast walls, or insulated concrete forms (ICF). In addition to a perimeter wall, a row of central supports is required where the two modules come together. This is typically accomplished with steel posts, which require footings below the slab.

- **Well & Septic**

If you do not have an existing water supply or sewer system this can be added before or after the home is installed. Remember that on-site wells and septic systems require permits and approvals from your local code/zoning authority. Most times the excavator you hire to do the grading is also able to install an on-site septic system.

- **Electrical Connection**

A panel box will be factory-installed in your home, but you will be responsible for bringing the power to the panel box. If the panel box is installed inside the home, a conduit will be provided through the floor or exterior wall for this connection. Or, if you are putting your home on a basement, we can temporarily tuck the panel box up under the floor and your electrician can then swing it down onto your basement wall after the home is set.

- **Plumbing Connections**

The plumbing is complete inside the home, but you will be responsible to make the final connections. All of the water lines and drains will come stubbed through the floor below each fixture. After the home is in place, you or your plumber will need to install the final drain and supply lines and connect them to your well and septic.

- **Floor Insulation**

Our standard home packages include spray foam applied to the foundation walls on site, in which case floor insulation is unnecessary. If for some reason you prefer to have the floor insulated, that would be your responsibility after the home is set.

- **Steps**

If your home plan includes a stairway to the basement, those steps are included in the package price. Exterior steps are also included, based on an average height of about 4' above grade. If your site requires a longer run of steps, there may be some additional cost.

- **Roof Gutters & Downspouts**

We recommend installing roof gutters & downspouts. We do not install them to allow narrower shipping widths and to prevent gutter damage during craning of the modules. This must be done by a local contractor.

- **Heating System**

Our packages do not include a heating system, though we do offer the option of electric baseboard heat as well as a through-the-roof wood stove chimney. Virtually any traditional heating system (including central heat & A/C or radiant floor heat) can be installed by a local contractor.

- **Appliances**

We install all the kitchen cabinetry, counter tops, and faucets – but not the appliances (such as the range, refrigerator, and dishwasher). We find that most customers would rather choose these items themselves. The one appliance we do include is either a range hood or over-range microwave, vented to the outside.

- **Furniture & Window Treatments**

And then, of course, there are furniture and window treatments (curtains, blinds, etc.) which are not provided. Decorate your Cozy Cabin with your own unique touch!

If you have any questions on the above items, or you are not sure about something that is not addressed here, please do not hesitate to contact us. We have attempted to list all the most common items, but we realize every situation is different and this list may not include every aspect for your project. We would love to help you understand the process!
